- Call scope and topics:

performance of agroecology, under different aspects in its various dimensions, quantifying environmental impacts, transforming value chains, and contributing to the design of public policies to better support the transition.

The partnership will fund R&I projects providing significant contributions to the scope of the call either by developing new methods and technologies or by providing analyses of the potential impact of agroecology in terms of sustainability:

Topic 1: Determine and assess benefits/impacts and trade-offs of agroecology, and identify best practices

Topic 2: Transform value chains, business models and policies to facilitate the transition to agroecology

Úkoly pro ČR

- ČR zatím zastoupena pouze skrze „in-kind“ contribution prostřednictvím UTB ve Zlíně
- Pro tvorbu partnerství se 100 % financováním (úspěšnost 30 – 40 %) je nezbytný „in-cash“ contribution členského státu
- To je vstupenka pro instituce členského státu do výzev v rámci partnerství Agroecology (podobně jako v medicínském výzkumu)
- Skrze Mze resp. Ministerstvo pro VaV a MŠMT je nezbytné poskytnou klidně malý „in-cash“ contribution, aby se české instituce mohly zapojit a dostat se k řádově vyšším částkám na výzkum (pákový efekt)
